

SATURDAY, FEBRUARY 4, 3 A.M.

All subscribers indebted to us will greatly oblige us by calling and settling up to the 1st of January, 1865.

Our 10 o'clock edition this morning will contain the speech of General Butler, delivered upon his arrival at home several days ago. The speech is exceedingly interesting, as furnishing Butler's defense against the charges recently preferred against him.

DEMOCRAT.—Colonel Edward A. Stirling, 35th Kentucky volunteers, and Lieutenant-Colonel E. Wier, of the same regiment, have been honorably discharged the service of the Union, and on the date of mustering in, transferred from company to company, and thereby fraudulently swelling the ranks to secure a greater muster into the service of the United States.

We clipped the above paragraph from a Nashville paper, forgetting to give the credit. We have doubts of the accuracy of this report, and from the known exalted reputation of the parties above alluded to, we are inclined to believe that the charges are unfounded.

TAKEAWAY.—We were present last night at another rehearsal of the tableau and pantomimes which are to constitute the entertainments to be given in the Masonic Temple next week, commencing with Monday night, and can speak with assurance that the public may expect exhibitions worthy of patronage. The scenes have been gotten up regardless of expense, and a wealth of talent and beauty has been called into requisition to present them in a proper manner. The Day Dream is beautiful in conception and perfect in its production. A sweet girlish face is pillow'd upon a sunny couch, and around her are groups of fairy forms, the bright creations of her nursing thoughts, and her awakenings with the warm kiss of love upon her rosy cheek. It is indeed a beautiful scene, and when presented will excite the interest of the public. Many other scenes of equal merit will be produced.

REFUGEES.—Our attention is attracted toward the wretched groups of the unfortunate, whom the cruelties and fortunes of war have driven from their homes and firesides, and left penniless and homeless. Their sufferings are great. Deprived of even the common necessities of life, and thither clad, they soon become the victims of disease, or die from exposure. We frequently read, in the columns of our exchanges, of the death of refugees—sometimes, of where whole families have been found dead—dead from starvation or neglect. The hand of charity should be extended to every sufferer of this class.

HOME-SICKNESS.—Vouchers for the following-named persons are now ready at the Provost Marshal's office: J. T. Beath, H. Clinton, H. Bremer, Conrad M. Table, John Heck, J. A. Crawford, John Back, Daniel Heibach, H. W. Kohler, James N. Ross, John Heck, John Jones, Michael Luff, Geo. Miller, George Off, E. G. Morris, D. J. Murray, Philip Ross, Wm. Stuckenberg, Adam Spain, E. D. Standford, A. Table, John Sachster, Adam Sawyer, H. C. Seamer, Samuel P. Secor, and Christopher Smith.

BARRACKS NEWS.—One hundred convalescents were received Barracks No. 1 yesterday, one hundred and four men were received from Springfield, five hundred and fifty-two from Nashville, three deserters from Detroit, and six from Indianapolis. The transfers were one hundred and seventy-one men to Nashville, twenty-five to Cairo, fifteen to Springfield, seventeen to St. Louis, seventeen to Detroit, and thirty-five to Indianapolis.

LORENTZ THEATRE.—The Förenaces are meeting with great success at this Theatre. The crowded house attests how well they are appreciated in the city. To-night, a great bill will be presented, consisting of three plays. The Irish Emigrant, Michael Angelo, and Irish Romeo. These plays will introduce the star performers in some of their best characters. A matinee will be given this afternoon.

KENTUCKY LEGISLATURE.—K. T. Beath, H. Clinton, H. Bremer, Conrad M. Table, John Heck, J. A. Crawford, John Back, Daniel Heibach, H. W. Kohler, James N. Ross, John Heck, John Jones, Michael Luff, Geo. Miller, George Off, E. G. Morris, D. J. Murray, Philip Ross, Wm. Stuckenberg, Adam Spain, E. D. Standford, A. Table, John Sachster, Adam Sawyer, H. C. Seamer, Samuel P. Secor, and Christopher Smith.

GUERRILLA OPERATIONS.—On Thursday evening, between six and seven o'clock, a gang of twenty-six guerrillas made a raid on the Louisville and Lexington Railroad, striking it at Midway, and burning the depot building at that place. Stores were robbed and citizens relieved of watches, money, &c. Quantrell and Sue Mundy were reported in command of the gang. They left in the direction of Versailles.

FRANKFORT, February 3, 1865. SENATE.

The Senate was opened with the usual service, and reading of yesterday's journal dispensed with.

Mr. Botts presented a petition from sundry citizens of Fleming county.

REPORTS OF COMMITTEES.

Mr. Ladd, from the Committee on the House Bill for the benefit of the New Orleans and Ohio Railroad Company. Passed.

A bill for the benefit of the administration of the Louisville and Lexington Railroad.

Mr. Baker, from the Committee on Internal Improvements.—A House bill to incorporate the Vicksburg and Mississippi Railroad Company, and the Mississippi River and Ohio Canal.

Mr. Harrison, from the same.—A bill to incorporate the Louisville Coal and Mining Company.

Mr. Robinson, from the same.—A bill to authorize the increase of the rates of toll, by the Board of Internal Improvement. Passed.

Mr. Farnsworth, from the House bill to incorporate the Mountain Coal and Oil Company. Passed.

Mr. Farnsworth, from the same.—A bill to incorporate the Davis County Petroleum, Coal, Mining, &c., Company.

Mr. Farnsworth, from the same.—A bill to incorporate the Marion, Washington, and Taylor County Oil, Mining, and Manufacturing Company, with an administration of the same.

Mr. Farnsworth, from the same.—A bill to incorporate the Commonwealth Petroleum Company. Passed.

Mr. Farnsworth, from the same.—A bill to incorporate the Middlebury and Louisville Company. Passed.

Mr. Farnsworth, from the Committee on Religion.—A bill to empower the Governor to grant a certificate of incorporation to a company to be organized by the citizens of Kentucky. Passed.

Mr. Farnsworth, from the same.—A bill to incorporate the Kentucky and Tennessee Coal and Manufacturing Company. Passed.

Mr. Farnsworth, from the same.—A bill to incorporate the Kentucky and Tennessee Coal and Manufacturing Company. Passed.

Mr. Farnsworth, from the same.—A bill to incorporate the Kentucky and Tennessee Coal and Manufacturing Company. Passed.

Mr. Farnsworth, from the same.—A bill to incorporate the Kentucky and Tennessee Coal and Manufacturing Company. Passed.

Mr. Farnsworth, from the same.—A bill to incorporate the Kentucky and Tennessee Coal and Manufacturing Company. Passed.

Mr. Farnsworth, from the same.—A bill to incorporate the Kentucky and Tennessee Coal and Manufacturing Company. Passed.

Mr. Farnsworth, from the same.—A bill to incorporate the Kentucky and Tennessee Coal and Manufacturing Company. Passed.

Mr. Farnsworth, from the same.—A bill to incorporate the Kentucky and Tennessee Coal and Manufacturing Company. Passed.

Mr. Farnsworth, from the same.—A bill to incorporate the Kentucky and Tennessee Coal and Manufacturing Company. Passed.

Mr. Farnsworth, from the same.—A bill to incorporate the Kentucky and Tennessee Coal and Manufacturing Company. Passed.

Mr. Farnsworth, from the same.—A bill to incorporate the Kentucky and Tennessee Coal and Manufacturing Company. Passed.

Mr. Farnsworth, from the same.—A bill to incorporate the Kentucky and Tennessee Coal and Manufacturing Company. Passed.

LOUISVILLE JOURNAL

PARAGRAPHS, ORIGINAL AND SELECTED.

A receipt of stolen goods in Cincinnati had his whole stock taken from him last week—an exhausted receiver.

Mercenary politicians and straws show which way the wind blows.

Many minds that are not far-reaching are over-reaching.

The son of a plain, humble farmer is often a rake. A farmer's rake is the only valuable kind.

A great rebellion is again raging in China.

The winds, the leaves of soughing, lylon, imperial, and bohio, is in a very big to do.

Every plain girl has one consolation.

The island of Trinidad, in which vast quantities of oil and asphaltum have been discovered, is covered with a tertiary formation of comparatively recent date. I have been shown specimens of asphaltum, which were found in this State, not so great distance from Louisville, that were in no respect different from that found in the island of Trinidad.

The indications of the presence of oil in any particular locality are frequently deceptive. In the vicinity of Niagara it has been found in drops, fossil coal, and enclosed in rock crystals; in many instances sandstone, and limestone are placed in the same strata.

The most valuable wells in Ohio and Pennsylvania are sunk in the Devonian and Pennsylvanian formations.

Women are always natural, for with them art is nature.

It is a good thing to be above-board, but generally a bad thing to be over-board.

When a man calls his wife a devil, he gives her a Nick name.

It is better to speak by the card than to play by it.

Poetry is everybody's echo which one man

judges.

A brief skill between a couple of chess-players results often in a draw, and between a couple of artists always in two draws.

Often those smart least who are least smart.

Give no heed to the exhibitions of a coquette. Her words and sighs are but wind, and all her tears but water.

Hypocrites wear long faces, just as if they supposed that God were an undertaker.

Common speakers have only one set of ideas, and one set of words to clothe them in; and these are always ready at the mouth: so people come fast out of church when it is almost empty, than when a crowd is at the door.

An idle man may groan beneath an hour as Atlas groaned beneath the world.

If you love life, do not squander time, for that is the stuff life is made of.

Literature consists in living in giving profusely than in giving judiciously.

Wise, learned and cruel play for power, the gender poison.

The most skilful young lady is the commonest.

You cannot give an instance of any man who is permitted to lay out his own time, contriving not to have tolls hours.

The love of liberty is given with life, and life is the gift of Heaven.

Like flowers of Heaven dreams often pass through the whole nights of men, leaving only a strange Summer perfume, the traces of their vanishing.

There are pupils in christendom, from which prayers may be received as curses.

Love, that opens the whole heart, when he gives it away, yet closes, and holds a little a corner where he need himself, and dictates to the most conscientious youth his first lie, to the purest maiden, her first, and her last.

Let there be a *first* hour of acquaintance.

Don't enter upon it boldly and confidently as if it were the second or the third.

These fools trouble but little, or not at all, without dislodge declare their vanity; but he who denies or tries to disguise it—he who inserts the peacock's tail behind the wings of the eagle.

Trust not the man who gravely covers his bald head.

The two who plough in the depths of helplessness rarely rise by the aid of virtue.

CHIEFLY SELECTED—PARTLY ORIGINAL.

Brigands in Greece poll their oil on the captives, to extort their money. That's an unusual woman?

The British Museum has obtained an open

written by Charles Lamb.

Poor consolation for us survivors—that "the good die first."

Poach ought to be punished. In order to get in a most atrocious joke, he pretends that he is "a coquette." To a correspondent, when he says "the smaller number of The Portuguese is a Portuguese."

An editor calls one of his contemporaries "a wise ass, and an abominable Methodist."

The infarct players at a theatre are all stock-jokers.

Always give a narrow-minded man a very wide birth.

Never nap in the cars, as the train runs over sleepers.

Europe has its one-legged dancer, Boston its one-legged skater.

The California papers publish "birds," "marriages," "divorces," and "deaths," in regular order. This is systematicating the thing.

Fog was so thick in Dubuque, Iowa, the other day, that people in the streets could not find their own residences. Quix—Wichita was foggy the atmosphere or the people?

Gold's arms are useful when you want to fight, but if you want to run away, colt's legs are better.

A milkman may have a habit of stopping daily near the river and not excuse suspicion; but when I find his little boy fishing for minnows in the milk pan, we begin to have our doubts.

Beard, one of the cleverest of the New York artists, is engaged on a series of pictures, in which the drowsy, the drowsy, the drowsy, the drowsy are ludicrously illustrated. If he were to frequent some fashionable balls, he might illustrate the dancing propensities of the harlequin.

A Russian nobleman in Paris is said to wear his deceased wife's remains in a huge finger-ring, in accordance with a vow made to her on her death-bed. A German chemist dissolved and compressed them within the required limits, and always will have a wife on hand.

It isn't the regular drinking that is so minus, but the drinking between drinks.

What creatures took along the smallest amount of baggage when they entered the ark? The cock and the fox: they had only a comb, and one brush between them.

The Jews would not set their foot upon a piece of paper least the name of God might be written upon it. Take care, lest your son set foot upon a man; for the name of God is written upon a man.

Love, although painted as a Caucasian cherub by white folks, is in Africa a black-amon.

A good place to find people at home—Not away.

Pleasant. To fall in with a pretty girl at a skating rink.

"My dear," said Mrs. Bumble to her daughter, "you must have something warm round you in the sleeve." Miss B. mentioned the request of her mother to her beau, and he immediately complied with it.

Whatever store you may set by your son—don't put any liquor in it.

It is said that, since Dr. Carnochan performed the difficult operation of removing a man's jaw, he has been repeatedly applied to take the jaw out of a woman.

What scriptural character does a drunk man most resemble? The beast with ten horns. Both modern beasts are not content with twice that number.

A down Yankee has invented a machine for grating people's feelings.

What bank officer does a man who boasts of being kingly by a pretty girl resemble? The grating seller.

"Many minds that are not far-reaching are over-reaching."

Though there were not enough righteous people in Sodom to save the city, there was nevertheless a pretty good lot.

A breach which every gallant soldier avoids—a breach of politeness.

It seems that General Rhoddy's boats about cutting Sherman's communications, were all Rhoddy-montane.

The most constant man that ever lived, would be sure to find at the end of ten years, that his love for his wife was a *decade* passion.

(For the Sunday Journal.)

PETROLEUM.

By PROF. C. W. WRIGHT.

Mineral oil is found in strata of rock of almost all ages, from the Lower Silurian to the post-tertiary formations, and has been discovered in and beneath nearly every variety of sedimentary rock—such, for example, as shale, sandstone, limestone, etc., etc. Thus, on Manitoulin Island, Lake Huron, it issues from slate in Pachemian, Canada, it is found in limestone in Medina, New York, the red shale in the old limestone, the blue in the new, the white in the sandstone, the black in the limestone, etc.

The most oil is found in the beds of the Ohio and Mississippi rivers, and in a very big to do. Every plain girl has one consolation. The island of Trinidad, in which vast quantities of oil and asphaltum have been discovered, is covered with a tertiary formation of comparatively recent date. I have been shown specimens of asphaltum, which were found in this State, not so great distance from Louisville, that were in no respect different from that found in the island of Trinidad.

The indications of the presence of oil in any particular locality are frequently deceptive. In the vicinity of Niagara it has been found in drops, fossil coal, and enclosed in rock crystals; in many instances sandstone, and limestone are placed in the same strata.

The most valuable wells in Ohio and Pennsylvania are sunk in the Devonian and Pennsylvanian, and limestone is in a very big to do.

I have been shown specimens of asphaltum, which were found in this State, not so great distance from Louisville, that were in no respect different from that found in the island of Trinidad.

The indications of the presence of oil in any particular locality are frequently deceptive. In the vicinity of Niagara it has been found in drops, fossil coal, and enclosed in rock crystals; in many instances sandstone, and limestone are placed in the same strata.

The most valuable wells in Ohio and Pennsylvania are sunk in the Devonian and Pennsylv
